

# STATWARS<sup>™</sup> CLIMATE CHANGE CHALLENGE

## STATWARS<sup>®</sup> 2021-22 Are your pupils STATWARRIORS?

The galactic and free to schools competition has returned!

This competition is open to pupils in both Upper KS2/P6-7 and KS3/S1-3. STATWARS<sup>®</sup> is a cross curricular data project that encourages pupils to analyse, interpret and present data, in order to inform decision making.

The two STATWARS<sup>®</sup> challenges are fully supported by teaching resources and sample data sets from the teacher will be required to register.

### STATWARS<sup>®</sup> Climate Change Challenge

- ▶ Pupils use big and small datasets to identify 3 changes they can personally commit to in their daily lives that will lower their individual carbon footprint.
- ▶ Pupils work in small teams or individually and will use their data skills to communicate their commitment to these changes in the form of a manifesto/advertisement poster.
- ▶ Design and create an advertisement poster/manifesto pledge, which is a creative element where pupils can explore ways of drawing attention to their ideas for change and encourage others to join them on their journey.
- ▶ Design and create a data driven infographic poster, which provides key information for how they came to their decision. Produce a 60-sec pitch to support their manifesto/advertisement poster and encourage others to join them

**Deadline for entries is June 19th 2022**

# STATWARS<sup>®</sup> FILM + TV

## STATWARS<sup>®</sup> Film and TV Challenge

- ▶ Pupils work in teams to analyse a large dataset of TV shows or films.
- ▶ They develop a data-driven concept for what they believe would be a successful future production.
- ▶ The competition requires teams of pupils or individuals to produce two posters (each, no larger than A2) one advertising the film or TV series, clearly designed to appeal to its demographic audience and the other to communicate through infographics, the data used to influence the decisions made.
- ▶ Teams or individuals will also be required to produce a 60 second film to use as an elevator pitch their idea to the judging panel.

Both challenges take around 6 hours of teaching and come complete with lesson plans and resources, free of charge. In addition to this, the team at Primary Engineer will be available to support you and your pupils throughout the challenge. They will even be able to link you with some of the biggest data companies, for additional support!

**REGISTER** [www.statwarscompetition.com](http://www.statwarscompetition.com) for access to resources, where to upload entries, access exclusive video content, certificates and much more.

All participants will receive STATWARRIOR Certificates with the class choosing which solutions to upload into the competition. The winning group from each class will be entered into the final round of judging by our high-profile industry judges.

**Deadline for entries is June 19th 2022**
